COMPANY OVERVIEW

1.1

Kulim Advanced Technologies Sendirian Berhad (KTechno) was established to offer complete portfolio of both products and services for Advanced Engineering, Consultancy and Training.

The primary role of KTechno is to be the catalyst and contributor to Technology Development in Advanced Engineering and Human Capital Development.

As a company focusing on delivering hi-tech services and education to the industries our aim is to promote and support Human Resources Development (HRD), Entrepreneur & Vendor Development and Engineering & Technical Services.

To realize enormous potentials within the industrial sector and linking services to the market, we offer 'state of art' infrastructure to support technology development with the latest technology facilities at our KHTP Techno Center, Metal Excellence Center (METEX).

TRAINING BUSINESS FACILITIES

2.1

ENGINEERING TRAINING

SKILL ILTIZAM PROGRAM:

We have been appointed by YAYASAN PENERAJU PENDIDIKAN BUMIPUTERA (YPPB) as a training partner to run Skill Iltizam Program. The program aims to nurture and develop students to become a skill in CNC Machining Technologies:

- 1) CNC Machinist
- 2) CNC Sheet Metal Fabrication - Technician
- 3) QAQC Inspector
- 4) Industrial Automation

SME CORP:

Kulim Advanced Technologies Sdn. Bhd. is one of the training providers appointed by SME Corp. to conduct skill upgrading programs for small & medium industries. Courses registered under this program are 70% funded by SME Corp where as SM1 has to pay only 20% for the courses attended.

Courses registered under SME Corp Skill Upgrading Programs:

- TECHNICAL & ENGINEERING COURSES
- QUALITY ENHANCEMENT
- BIOTECHNOLOGY

PSMB:

We are PSMB Class A training provider registered eligible for SBL Khas & Prolus. Under the SBL-Khas Scheme, employers are not required to pay training fee to training providers. Training fees will be paid by PSMB to the training providers on behalf the employers. We also offer customized in-house training programmes that suit to customers need.

Course Registered Under PSMB (SBL KHAS):

- INTRODUCTION FOR TS 16949
- FAILURE MODE EFFECTS ANALYSIS
- STATISTICAL PROCESS CONTROL
- MEASUREMENT SYSTEM ANALYSIS

ENGINEERING (TRAINING) BUSINESS ACTIVITIES

2.1

ENGINEERING (TRAINING) :

We offer a comprehensive range of courses to support organization in the field of Quality Environmental safety & Health, Quality Enhancement Program, Software Application and Skill Upgrading Programs.

Our Training programs also can be tailored to meet the needs of the individual organizations. Training services provided :

Course Offered:

- QUALITY ENHANCEMENT
- SAFETY & HEALTH
- CONSULTATION SERVICES
- IT APPLICATIONS
- RAPID PROTOTYPING
- ADVANCE ENGINEERING
- ROBOTIC
- TECHNICAL/TRAINING - CNC MACHINE
- INDUSTRIAL AUTOMATION

ENGINEERING (CREST) BUSINESS UNIT

2.1

PRECISION ENGINEERING (CREST) :

Centre for Research Engineering Science and Technology (CREST) is committed in supplying quality products and services that will conform to customers' requirements. With our strong objective embedded in our mission, can help you to achieve your targets.

OBJECTIVES:

- To offer one stop outsourcing production centre in engineering design, prototyping, fabrication and quality assurance to manufacturing industries.
- To assist entrepreneurs in engineering service and product development using our design software lab machining facilities.
- To offer consultancy and training services for engineering skills development using our advanced CNC simulation and Robotic labs.

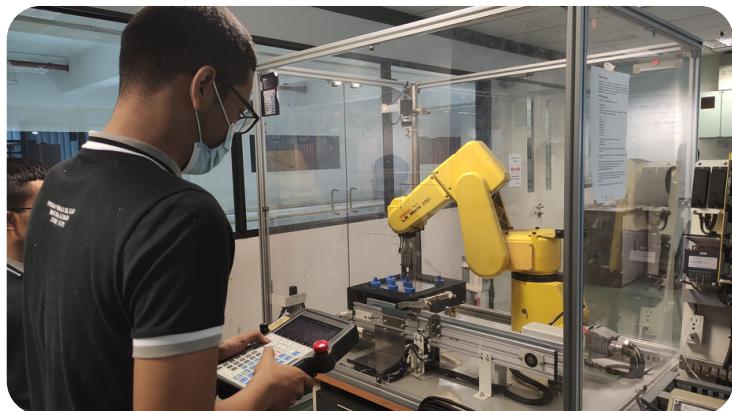

SPECIALISATION:

Specializes in design fabrication and manufacturing of precision tooling for the production of plastic and metal related components.

We serve as an extension of your facilities and share in your commitment to get the job done efficiently, economically and with a level of quality that reflects a sense of pride and dedication.

Services Offered:

- TECHNICAL ADVICE AND CONSULTANCY
- RAPID PROTOTYPING
- QUALITY ASSURANCE
- MANUFACTURING BY PRODUCTS
- ENGINEERING DESIGN
- REVERSE ENGINEERING
- ENGINEERING TRAINING AND CONSULTANCY SERVICES

ENGINEERING (CREST) FACILITIES

2.1

ENGINEERING (METEX) BUSINESS UNIT

2.2

METAL EXCELLENCE CENTRE (METEX) :

METEX Centre is an advanced manufacturing technology facility that provides prototyping as well as services ranging from design to manufacturing in sheet metal fabrication. Customers from a variety of industries can benefit from these advanced equipment through upgrading of their technological capability by utilizing to their and customers.

All machines at METEX are linked up by an integrated network system. This configuration features the actual ideal manufacturing setting in sheet metal fabrication.

Services Offered:

- SHEET METAL FABRICATION CONSULTATION
- SHEET METAL PRODUCTIONS
- HIGH PRECISION HYDRAULIC SHEARING MACHINE
- SHEET METAL DESIGN SERVICES
- HIGH SPEED AND ACCURACY CO2 LASER CUTTING
- DIGITAL CONTROL CNC HYDRAULIC PRESS BRAKE
FOR SHEET METAL BENDING
- BANDSAW MACHINE FOR CUTTING OF STRUCTURE
STEEL
- HIGH PERFORMANCE CNC TURRENT PUNCH
OPERATION FOR MILL STEEL, STAINLESS STEEL AND
COPPLATE
